

## Orlando Foot & Ankle Clinic Joins Upperline Health

**Nashville, Tenn. (October 22, 2019)** — [Orlando Foot & Ankle Clinic](#) has partnered with [Upperline Health](#), a leader in lower-extremity care. Orlando Foot & Ankle Clinic is comprised of 21 foot and ankle physicians and surgeons across 18 clinics that offer comprehensive care to residents of central Florida.

“We believe that changing the paradigm of healthcare is possible by bringing together the best and brightest doctors and leveraging our value-based care experience to provide better care at a lower cost to the system and to our patients.” said Dr. Michael King, DPM, Chief Medical Officer at Upperline Health.

The Upperline Health group in central Florida now includes 39 foot and ankle specialists across 29 clinics, making it the largest practice in central Florida and further increasing its footprint across the United States.

“Orlando Foot & Ankle’s high-caliber team of surgeons will continue to provide the highest quality preventative care and surgical treatment to our patients,” said Dr. Christopher Reeves, DPM, FACFAS and partner at Orlando Foot & Ankle Clinic. “Together we will continue our work of establishing lower extremity care as an integral part of the medical community.”

“After thirty plus years of growing this group practice, I really thought the energy and enthusiasm of our practice might have already peaked,” said Dr. David B. Moates, DPM, FACFAS. “But the opportunities and synergies now made possible with Upperline Health have me more excited than ever knowing that we all can achieve even more to provide high-quality foot and ankle care in Central Florida.”

**Upperline Health** provides the highest quality care to more patients in need through a skilled and compassionate team. Upperline Health is building out a network of the top podiatric physicians and practices across the country while partnering with health plans and community providers to deliver comprehensive lower extremity and wound care in a consistent and high-quality manner. Upperline Health currently offers lower extremity care throughout Alabama, California, Florida and Tennessee via 53 providers and 41 clinics. [Learn More](#)

**Orlando Foot & Ankle Clinic** is committed to the delivery of optimal quality and cost-effective medical and surgical care. It is the joint responsibility and goal of the physicians as well as the entire staff to provide Orlando Foot & Ankle Clinic’s patients with excellence at every phase of their diagnosis and treatment. Orlando Foot & Ankle Clinic physicians enjoy privileges at 17 hospital locations and 2 outpatient surgery centers to accommodate the growing medical needs of the Central Florida communities.
